Hey Ilde-

Attached is a response I drafted for a web inquiry that we received regarding a school in Northport, Suffolk County NY. There are several issues raised by the concerned parent in her complaint, including a neighboring site that was evaluated for NPL listing and was NFRAP'd. I'm struggling with that portion of my response, since the NFRAP evaluation was done assuming a worse case scenario without collecting environmental samples. If you can help in any way that would be wonderful!

I know with the "bomb" cyclone coming tomorrow that most people may be out of work, I'm not sure if you will be in. I'm in all day - telework - and can be reached at (908) 420-4510.

Thanks again for any help!
Kim

Hey Mark,

Attached is my draft for a response to the initial complaint. Keep in mind this is a very early draft since I'm still gathering information.

My biggest concern is that the PA conducted by a contractor retained by DVA does not have soil sampling data. No on site soil sampling was ever conducted. I have a bad feeling this may not sit well with parents.

Please take a look and let me know your thoughts! This may be something I can bring up to Joe Rotola for possible removal assessment....

Hope you have a great holiday!

Kim
